Risk Levels	Little to None	Minor	Moderate	Major	Extreme		

Weather Key Points

Regional Operations Center

Western Region

Tuesday, July 19

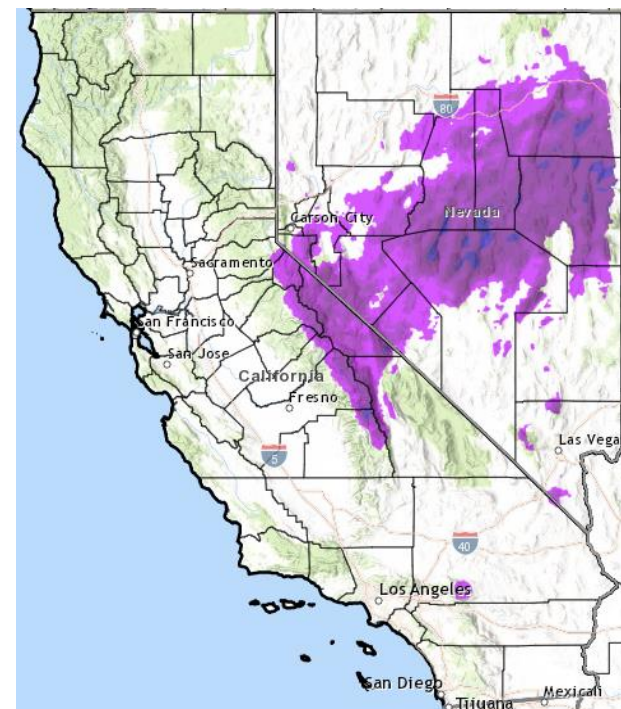

- Elevated fire weather conditions will again be present, with afternoon and evening breezy winds in and around the mountains, foothills, and southern deserts each day this week
 - Very dry humidity values and stronger winds (with gusts of 30-40 mph) will again produce critical fire weather conditions in Modoc and eastern Siskiyou County on Tuesday
- Seasonably hot mid-July temperatures will continue for much of inland California through the first half of the week, with a cooling trend expected for the latter half of the week
 - Moderate to locally high heat risk impacts will persist each afternoon through early week, gradually becoming confined to mainly southern California by late week
 - High temperatures each afternoon will reach 95-105°F across much of the Central Valley (locally up to 110°F in portions of the San Joaquin Valley through Monday), with readings of 105-115°F common for the southern deserts
- Monsoon showers and thunderstorms are expected to be limited to the central Sierra Nevada Tuesday
 - Widespread impacts from any storms are not expected, though locally heavy rainfall and gusty winds are possible where storms develop

Precipitation Forecast

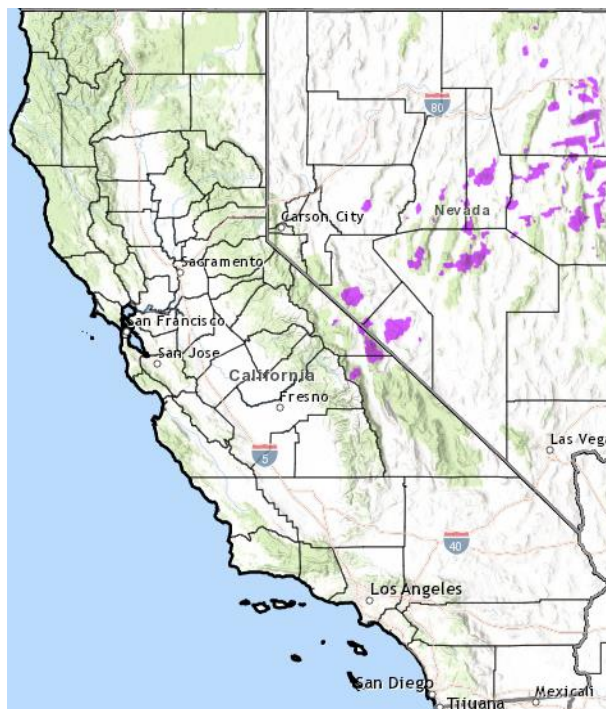

Regional Operations Center

Western Region

Tuesday, July 19

Tuesday

Wednesday

Thursday

Note: Forecast precipitation amounts are an average for any particular location. Thunderstorms may produce locally higher rainfall amounts.

Precipitation (inches)

Heat Risk

Regional Operations Center

Western Region

Tuesday, July 19

Tuesday

Wednesday

Thursday

Green	Level 0	No Elevated Risk
Yellow	Level 1	Low Risk for those extremely sensitive to heat, especially those without effective cooling and/or adequate hydration
Orange	Level 2	Moderate Risk for those who are sensitive to heat, especially those without effective cooling and/or adequate hydration

Red	Level 3	High Risk for much of the population, especially those who are heat sensitive and those without effective cooling and/or adequate hydration
Magenta	Level 4	Very High Risk for the entire population due to long duration heat, with little to no relief overnight

Weather Outlook (6-14 Days)

Regional Operations Center

Western Region

Tuesday, July 19

6-10 Day Outlook (July 24 – July 28)

Temperatures

- Above normal temperatures are favored across much of California, with greatest likelihood for above normal temperatures across northeast portions of the state

Precipitation

- Below normal precipitation is favored across far northern California, with near normal precipitation favored for the remainder of the state, except for the southern Sierra Nevada, along the southern Nevada border, and far southeast California where above normal precipitation is favored (near the Arizona border)

8-14 Day Outlook (July 26 – August 1)

Temperatures

- Above normal temperatures are favored across California, with the greatest likelihood for above normal temperatures across northeast portions of the state

Precipitation

- Near normal precipitation is favored for northern California, with above normal precipitation favored in the southern central valley areas, central and southern Sierra Nevada, and across southeast California (along the Nevada and Arizona borders)

COVID-19 SUMMARY

Coronavirus Disease 2019 (COVID-19)

On 03/02/20 at 0700 hours, the Cal OES State Operations Center (SOC) activated in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

SMARTER Plan

On 02/17/22, Governor Newsom unveiled the "[California SMARTER Plan: The Next Phase of California's COVID-19 Response](#)". The plan emphasizes continued readiness, awareness and flexibility and helps ensure California can maintain its focus on communities that continue to be disproportionately impacted and stay prepared to swiftly and effectively respond to emerging COVID-19 variants and changing conditions.

CDPH Statewide Travel Advisory

- For more information: [CDC Travel Guidelines](#)

Confirmed California COVID-19 Cases - Per California Department of Public Health Tracking COVID-19 as of 07/13/22 at 1630 hours:

- 9,619,398 total confirmed cases.
 - 119,022 Delta
- 92,055 total deaths.
 - 260 Delta
- Please see the most recent "Situation Report - COVID-19" attachment for additional details.

EMAC

- 2357-RSA-11375 (New Mexico, Response & Recovery)
 - 2 Cal OES staff deployed to New Mexico on 07/06/22 to support ongoing wildfires within the state.
 - Scheduled to demobilize on 07/30/22

Mission Tasking

- **2020-FIRE-20323:** Joint Task Force Rattlesnake consisting of 330 CNG service members to backfill federal, state, and local first responders committed to COVID-19 emergency response operations.
- **2022-Fire-80239:** [CNA Type 1 Medevac Helicopter – CA-CDF-000341 \(A1\)](#)

FIRE ACTIVITY

Cal OES INLAND REGION

Washburn, Vegetation Fire, Mariposa County (Update)

Location: Hwy. 41 x Mariposa Grove Rd., Fish Camp

Jurisdiction: Federal DPA, FRA, Yosemite National Park

Per Cal OES Duty Officers and ICS-209 as of 07/19/22 at 0806 hours:

- 4,863 acres (-48 acres), brush and timber, 58% contained (+8% containment)
- Active fire behavior with flanking, backing and isolated torching
- Threat to critical infrastructure and Giant Sequoia grove
- Road, trail and campgrounds closures in the area
- CAIIMT 15 mobilizing to YNP-Washburn. In brief 07/22/22 at 1900 hours.
- CAIIMT 13 in command

Deployments

- 1 Cal OES Fire and Rescue Branch Assistant Chief assigned.
- 2 Cal OES PSC Technicians assigned.

Mandatory Evacuations

- Mariposa County: 111 (Estimate only, not vetted by YNPS or MCSO)

Missions

- 2022-YNP-000038, S-198 and S-199 (Washburn Fire): 1 Cache Sonim Phones (10 phones) and 10 Nighthawk Firstnet Hotspots provided to COML. Region V COMC monitoring.

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES SOUTHERN REGION

- Nothing significant to report.

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Enforcement Missions

- **2022-LAW-80283, 07/18/22, about 1102 hours,** IERCC notified CSWC of an InReach Satellite Communicator SOS activation at coordinates 38.244159, -119.576805 which plots to the Pacific Crest Trail, North of Lower Long Lake near the West Fork of the West Walker River, Mono County. LDO contacted IERCC who provided a data and communication link to incident. IERCC advised they had received a message from the RO indicating he has been unable to locate his wife for the past few hours. LDO contacted Mono County SAR who advised they will handle the incident. IERCC intercepted a subsequent message wherein a hiker messaged the RO to say he passed a woman halfway up a switchback about two miles past a creek. LDO passed along information to Mono County SAR Coordinator. About 1215 hours, IERCC advised RO's GPS track is moving northwest. LDO passed on the information to Mono County SAR. **UPDATE:** About 1447 hours, IERCC advised GPS track continues to head northwest. Mono County SAR advised they will attempt to intercept RO to see if he has located his wife. **UPDATE:** About 1800 hours, Mono County SAR advised they had located the missing person and she was reunited, uninjured, with her husband. **Mission Closed.**
- **2022-LAW-80289, 07/18/22, about 1513 hours,** IERCC notified CSWC of an InReach Satellite Communicator SOS activation at coordinates 38.877997, -12-139790 which plots to the northwest corner of Heather Lake, Tahoe Rim Trail, El Dorado County. IERCC advised the RO indicated that a 79-year-old woman fell and hit her head and that she had fainted. LDO contacted El Dorado County Sheriff's Office dispatch. Dispatch advised they had received a call on the incident but did not know the exact location. LDO provided the coordinates. LDO requested IERCC send data and communications link to El Dorado SO to assist with their search. El Dorado SO advised CHP air support was enroute to locate the injured hiker. About 1800 hours, El Dorado County SO advised the victim had been transported via helicopter to a base camp and driven to Barton hospital via ground ambulance. LDO updated IERCC. **Mission Closed.**
- **2022-LAW-80293, 07/18/22, about 1715 hours,** IERCC notified CSWC of an InReach Satellite Communicator SOS activation at coordinates 37.123833, -118.645048 which plots to the Pacific Crest Trail along the Middle Fork Kings River northeast of Helen Lake, Kings Canyon National Park, Fresno County. The RO indicated an unknown adult suffered a shoulder injury and they were with a minor. LDO contacted IERCC who advised it was reported to SEKI. SEKI advised they were getting rangers together to respond, and they were communicating with the RO. **UPDATE:** About 1839 hours, IERCC advised the injured individual is a 54-year-old male in a group of five. He has a possible broken shoulder. SEKI is still assessing and determining appropriate resources to dispatch to assess the injured hiker. **UPDATE:** About 2037 hours, IERCC advised rangers are approximately 30-45 minutes out from reaching the injured hiker. **UPDATE:** About 2200 hours, IERCC advised the injured hiker will likely be escorted out on foot in the morning unless his condition worsens in which a helicopter may be summoned in the morning. **Mission Ongoing.**

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Enforcement Missions

- **2022-LAW-80307, 07/18/22, About 2032 hours**, IERCC notified CSWC of an InReach Satellite Communicator SOS activation at coordinates, 37.840916, -119.414027 which plots to John Muir Trail near Cathedral Lakes, Yosemite National Park, Mariposa County. IERCC advised the RO activated the InReach device for a third party who dropped a pot of boiling water on his foot. The 58-year-old hiker's is unable to walk and his foot is, "peeling". LDO contacted IERCC who advised the injured hiker believes he has 2nd degree burns and is requesting to be airlifted for medical treatment. IERCC advised Yosemite National Park Dispatch was contacted and they are developing a plan to assist the injured hiker. **UPDATE:** About 2000 hours, IERCC advised rangers are still working on an extraction plan as utilization of air assets tonight are not a viable option. Rangers are considering flying the injured hiker out in the morning and/or utilizing horseback to conduct the extraction. **UPDATE:** About 2250 hours, IERCC advised rangers had devised a plan to send in a ranger and EMT tomorrow morning and extract the injured hiker on horseback. **Mission Ongoing.**
- **2022-LAW-80311, 7/18/2022, 2114 hours**, Fresno County Sheriff's Office (FCSO) requesting a helicopter with NVG capability for an injured hiker possibly having a heart attack. The call came through Cal Fire Dispatch from a third party satellite phone, advising the victim was approximately four miles East of a trail fork, East of Courtright Reservoir, later identified by GPS coordinates 37.122955 -118. 94044. The caller disconnected without giving victim or call back information. FCSO has initiated a ground SAR team response but with a lengthy response time. FCSO advising theirs and CHP's helicopter unavailable. Based on the medical exigency, FCSO requesting Lemoore NAS helicopter's availability. LDO relayed FCSO 's request to AFRCC and Lemoore NAS. AFRCC approved the request, #22M0286, and Lemoore NAS accepted the mission. LDO updated FCSO. **Update:** 7/19/2022, 0039 hours, FCSO advising Lemoore NAS Helicopter has completed its assignment with no one located within the search area that was in distress. Lemoore NAS Helicopter released back to home base. FCSO is continuing to investigate and has ground teams continuing to search. FCSO advising no further assistance is needed and request the SAR MA mission be closed. **Mission Closed.**
- **2022-LAW-80267, 07/17/22, 1822 hours:** Riverside County Sheriff's Office requested CAL OES LDO contact AFRCC to request cell phone forensics for a missing hiker. The 23-year-old male hiker was attempting to hike the Cactus to Clouds Trail, Skyline Trail, Palm Springs, Riverside County. The missing hiker left his residence on 07/16/22 at 0500 hours in Moreno Valley, CA, and arrived at the Skyline trailhead parking lot at approximately 0600 hours. His plan was to hike Cactus to Clouds. It was unknown if the subject had planned to spend the night on the trail. As of 07/17/22 at 1400 hours, his vehicle is still located at the trailhead parking lot. Additionally, Rangers have no record and/or permit for missing person for 07/16 and 07/17. About 1830 hours, LDO contacted AFRCC and requested cell phone forensics. LDO provided pertinent details to AFRCC who advise the request appeared to be within their mission parameters and would assist. LDO contacted Riverside County Sheriff's Office SAR Coordinator to advise them AFRCC had accepted the mission. **UPDATE:** On 07/18/22, about 0730 hours, LDO spoke with Riverside County SAR who advised they have been searching the area (top-down and bottom-up), have possibly found some of the missing persons clothing, and have just received data from AFRCC which has helped narrow down the search. During this upcoming operational period personnel will be inserted via air assets to search more targeted areas based on the AFRCC data. **Update: 7/18/2022, about 1718 hours**, RCSO advised based on the feedback from AFRCC's data of the cell phone forensics investigation, they were able to saturate the search area with ground searchers and an airship who located the MP. Unfortunately, the MP was found deceased approximately 600 feet up-trail from the cell phone data. RCSO has recovered and turned over the body to the coroner. LDO updated AFRCC that the victim had been located deceased. **Mission Closed.**

Cal OES MISSION TASKINGS

Cal OES Missions

- **2022-CalOES-78230 (New Mexico EMAC):** 1 iSat phone for EMAC deployment to New Mexico.

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
